Stacking Method

Fork rating differs with stacking method and facility's temperature. Please, note this change as it relates to your application.

Fully Nestable

Model	Dimensions		Height			Nested Trailer		Floor Ratings	Weight
	L	W	Fork	Overall	Nesting	48'	53'		
DC4-4248	48.00"	42.00"	4.00"	6.50"	2.50"	1008	1080	6,500 lbs.	22 lbs.

TriEnda publishes standard guidelines for its products, based on its testing standards, and, as such, these guidelines do not constitute any warranty related to each customer's individual application. The material handling industry has not standardized on test methodology and rating criteria for each individual product. All TriEnda products are sold with the understanding that the customer will validate for themselves the suitability of the product for their specific application. As each product application is unique, the customer assumes all risks associated with the determination and actual use of the pallet.
