

# Bulk Bag Pallet™

Weighs less than 15 lbs., allowing you to optimize your load

Can be Used with Conveyor Systems

No Nail Heads or Wood Splinters to Avoid Contamination and Bag Tears

TriEnda is now offering our new FIBC Bulk Bag Pallet. A unique shipping solution that safely transports goods at a price competitive to wood. Our pallet has been rigorously tested to withstand the shipping demands of your industry. This plastic pallet is ISPM exempt and allows for clean, dry, and sanitary shipping and transport of bulk bags and super sacks. Unloading is easy with the 4-way entry for forks, and the risk of damage is minimized with the enclosed fork holes. Designed to handle safe workloads rated at 5:1 or 6:1, this long-lasting reusable pallet is a smart choice for the environment and your bottom line.

Flip for Flat or Raised Deck

## ADVANTAGES

Recyclable, Cradle to Cradle.

Humidity-resistant to keep breakage to a minimum

ISPM 15 Exempt  
Sanitary, ships world-wide without costly delays.

Impact resistant for long cycle life.

TriEnda publishes standard guidelines for its products, based on its testing standards, and, as such, these guidelines do not constitute any warranty related to each customer's individual application. The material handling industry has not standardized on test methodology and rating criteria for each individual product. All TriEnda products are sold with the understanding that the customer will validate for themselves the suitability of the product for their specific application. As each product application is unique, the customer assumes all risks associated with the determination and actual use of the pallet.
