

LATERAL VOID FILLERS

PREVENT LOAD SHIFTING

Cargo Protect+ Lateral Void Fillers provide rigid load securement for single, double, and triple stacks- in trailers, containers, and rail cars.

Palletized goods can lean and fall into the empty spaces of a load often resulting in additional unload time and damaged products. Fill the space by easily sliding Lateral Void Fillers into place.

- Use between pallets or product and interior walls of a truck, sea container, or rail car
- Use instead of drop down filler

HEAVY DUTY HDPE SOLUTION

Reduce damages
by up to **80%**

Increases product
quantity per shipment

LATERAL VOID FILLERS

Cargo Protect+ delivers better freight protection at a lower total cost.

FEATURES

- Energy absorbing- cushions without crushing
