**COMPATIBLE**  
**STRONG HDPE**  
Thermoformed Construction

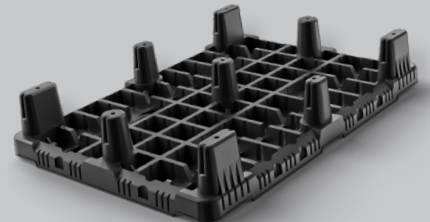

**4-Way  
Forkjack  
Access**

TriEnda's single sheet thermoformed construction provides strength while incorporating a light weight design. Narrow deck fits through small spaces like doorways, coolers, freezers and aisles. A perimeter lip prevents dangerous slide offs. Add our TruGrip surface option, for additional slide control with the highest COF on the market. A sanitary design with no hollow areas—a perfect choice for convenience and small format stores. Standard features include hand holes and drain holes. Options include stripe colors, coditherm, decals and mold in logos. FDA materials available with virgin resin.
