

PLASTIC BOARDS

Stabilizes double stacking, protects packaging and fills under-hang.

01 / Details

Heavy Duty HDPE Solution

Lightweight, extremely durable board outperforms plywood at a lower total cost.

- Use under double-stacked pallet loads to stabilize for shipment
- Use under multiple-stacked pallet loads in warehouse for safer tall stacks
- Use between pallet loads to protect product packaging
- Use to fill under-hang void on pallets
- Use instead of plywood & honeycomb corrugate

QUANTITY PER SHIPMENT**

Ergonomic hand holes

Evenly distribute weight when used between stacks

Stabilize double and triple stacked loads

02 / Specifications

Plastic Board

- 48" h x 40" w x 1.25" d - 15 lbs
- Can fit 2,760 in return shipments
- Ideal for bagged product or supersacks
- Ideal for pallets with under-hang
- Supports up to 3,000 lbs.
- Parts are nestable for return shipments

Plastic Cover

- 48" h x 40" w x 3" d - 16.5 lbs
- Can fit 2,700 in return shipments
- Supports static load of 4,000 lbs.
- Parts are nestable for return shipments

PLASTIC BOARDS

FEATURES

- Energy absorbing- cushions without crushing
- Lightweight rigid parts enable fast loading
- Ergonomic hand holes ensure easy handling
- Splinter-free & lightweight HDPE material reduces dock related injuries
- Weather & moisture resistance allows outside storage to optimize warehouse space
- Easy to clean surfaces are beneficial for use with a variety of commodities

CARGO PROTECT+ ADVANTAGES

- Environmentally Friendly
- ISPM 15 Exempt
- Long Service Life

TriEnda publishes standard guidelines for its products, based on its testing standards, and, as such, these guidelines do not constitute any warranty related to each customer's individual application. The material handling industry has not standardized on test methodology and rating criteria for each individual product. All TriEnda products are sold with the understanding that the customer will validate for themselves the suitability of the product for their specific application. As each product application is unique, the customer assumes all risks associated with the determination and actual use of the pallet.
