

# GS Rackable Pallet

40x48

Top view

## 01 / Details

### FEATURES

- High-pressure injection molded design using HDPE for optimal performance and durability
- Full picture frame runner system for enhanced versatility and racking capability
- Grommets on top deck and bottom runners to mitigate slippage
- Environmentally friendly and 100% recyclable

### OPTIONS

- Alternative material blends and colors for custom applications
- Different configurations and quantities (0, 1, 3, and 5) of fiberglass rods to accommodate most racking requirements
- Custom trimming of runners for use with special material handling equipment
- Ink stamping for company logos and branding

Reinforcement Rods and Ink Stamping

TriEnda publishes standard guidelines for its products, based on its testing standards, and, as such, these guidelines do not constitute any warranty related to each customer's individual application. The material handling industry has not standardized on test methodology and rating criteria for each individual product. All TriEnda products are sold with the understanding that the customer will validate for themselves the suitability of the product for their specific application. As each product application is unique, the customer assumes all risks associated with the determination and actual use of the pallet.
